THE NEW CHIEF JUSTICE.

After much speculation on the subject and two futile efforts on the part of the President to fill the office of Chief Justice in opposition to the popular wish, the controversy may be regarded as virtually settled by the nomination of Caleb Cushing as the successor of Jay, Marshall, Taney and Chase. There can be no ressonable doubt that the nomination will be confirmed by the Senate. The new Chief Justice is one of the most scholarly men in America or Europe, and in ability as a lawyer no man in either hemisphere is his superior. He was in early life regarded, and we think not unjustly, as a tricky politician, but his later years have developed a greater amount of political sincerity than he exhibited thirty years ago. Caleb Cushing is a native of Massachusetts, having been born at Salisbury, in that State, Jan. #17, 1800. the National Banks of their own circula-Harvard College, and at 22 was ad- be deposited in the Treasury for bonds mitted to the bar at Newburyport. In 1825 and 1826, and in 1833 and 1834 he served in the Massachusetts Lecislature, and served in Congress from 1835 to 1843. While Commissioner to China during John Tyler's administration he negotiated an important treaty. In 1846 he was again in the Legislature. In 1846 he was Colonel of a Massachusetts regiment of Mexican war volunteers, and afterwards was appointed Brigadier General. Re-entered the Legislature in 1850, and in 1851 was made Chief Justice of Massachusetts. He was Attorney General during Pierce's term as President, and served in the Massachusetts Lagislature after his return to his native State. During the early part of these notes as early as pessible. the stormy convention at Charleston, S. C., which resulted in the disruption of the Democratic party, Cushing presided. that the Senate last evening adopted the He then ranked as a "Northern man with Southern principles," but on the breaking out of the secession troubles he took sides with the Federal Government, though he was not conspicuous during appointment will give general satisfaction to the bar and the country.

THE GRANGERS' DEMANDS .- A Washington special says those members of the House who have the best claims to represent the farmers' movement give the following as the main points of legislation which will be urged on Congress in the interest of the Grangers:

First-the opening of the mouth of the Mississippi to large vessels in such a manner as to ensure their entrance and egress at all stages of water without diffi-

Second-Legislation to prevent the railways west of the Mississippi river from discriminating in their rates of freight against points on the river, and in favor of all railways at points beyond, thus making it impossible for farmers to avail themselves of cheap water trans-

portation.
Third—Legislation to prevent similar discrimination by roads running east and west against north and south roads, thus preventing farmers when the Mississippi river is frozen from sending their grain southward on railways till the open river

s reached.

Fourth—Legislation for fixing rates for

the transportation of live stock on rail-ways from West to East.

This is the only article they will ask to have rates fixed on, and the reason for asking this is that it is the only important article of their products that must come by rail to the East. The only leg-islation involving money to be asked is the opening of the mouth of the Missisappi, by withdrawing expenditure from ess important works

THE Legislature of Ohio met on the 5th. The House organized by the election of George L. Converse, of Franklin, as Speaker; Thomas Coughlin as Chief Clerk, and a full list of Democratic minor officials. After organization, a resolution asking Congress to repeal the salary bill was offered and referred to a Special Committee, with instructions to amend so as to censure the President for signing the bill, and report to-morrow. The Senate elected S. K. Donovan Chief Clerk, and a full list of Democratic officers. Governor Noves' message showed the total State debt to be \$32. 314.000; decrease in the past year, \$379 .. 484; while the local indebtedness increased nearly \$2,500,000. The Governor deprecates the system now in use of letting out convict labor by contract, and favored some plan of utilizing such labor so as not to interfere with outside

REAPPORTIONMENT IN CALIFORNIA .- A bill is before the Legislature for redistricting the State for Legislative purposes. If it passes San Francisco will have 10 Senators and 21 Assemblymen, and that city will be divided into districts, instead of all legislators being elected by general ticket. Under this bill the "cow counties" will have about 30 Senators of the 40 to be elected; now they have only about 20. In the Assembly the strength of the "cow counties" will be increased from 46 to about 53 of the 80 members. This would give those counties a preponderance in both

CHICAGO, Jan. 10 .- A Washington special says the reception of Secretary Fish to-night was the occasion of bringing together a majority of the Senators and Representatives, and the main subject of the conversation was the nomination of Caleb Cushing. Nearly all the facts of the executive session came out in the various conversations. Mr. Sumner urged immediate confirmation, and all the Democrats supported him. Mr. Sargent, of California, objected; insisted it should go to the committee. Nearly every Republican member of the committee was personally strongly dissatisfied with the nomination, but it was at last decided to report favorably.
